## Paint Transfer Tutorial

*Jane Bosi filmed this easy technique.*

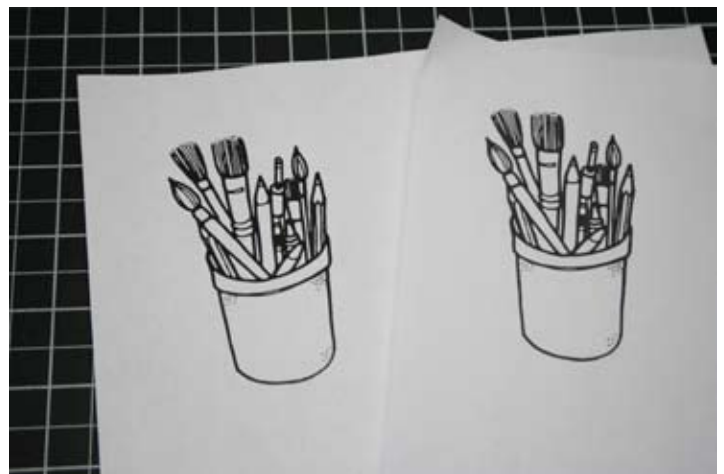

### Supplies:

- Rubber or Digital Stamp
- Scissors
- Adirondack Acrylic Paint Dabber
- Water Mister
- White Cardstock
- Photocopy Machine, not pictured

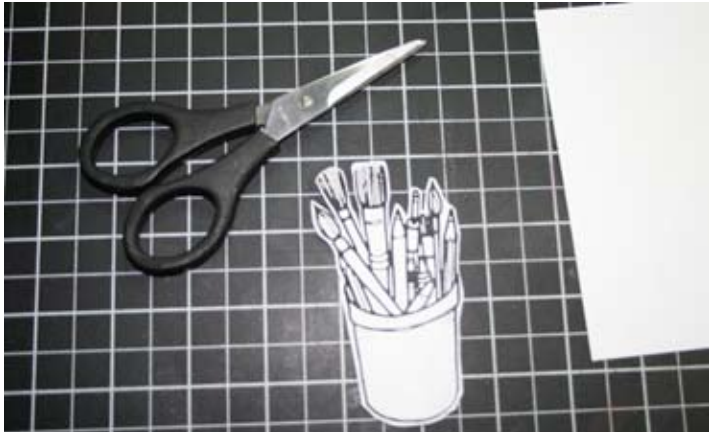

### Step One:

Stamp image or print digital image.

### Step Two:

Copy image using photocopy machine.

### Step Three:

Trim around copy of image using scissors. Set aside.

### Step Five:

Place trimmed image into wet paint. Allow to dry completely.

### Step Six:

Lightly spritz dried image with water once or twice.

### Step Seven:

Allow water to penetrate copy paper for a few moments. Gently rub wet areas with finger to remove paper.

### Step Eight:

Rubbing too hard, or without enough moisture, will result in the removal of the image as well.

### Step Nine:

Remoisten and rub copy paper as needed.

### Step Eleven:

Use piece as desired.

### Step Ten:

Continue removing copy paper until all has been discarded.
