Stained Resist Tutorial

Distress Stains hold their color in a remarkable way. Use watercolor paper for best results.

Filmed by Pat Huntoon.

Supplies:

- 3 Complementary Colors of Distress Stains
- Watercolor Paper
- Background Stamp
- White Embossing Powder
- VersaMark or White Pigment Ink
- Heat Tool
- Water Misting Bottle (not pictured)

Step One:

Ink the background stamp with white ink/VersaMark ink. Stamp ink on the watercolor paper. Apply white embossing powder and remove excess.

Step Two:

Use the heat tool to emboss the image.

Step Three:

Lightly spritz the paper with water.

Step Five:

Apply the second color of Distress Stain in the same manner.

Step Seven:

Spritz the wet stains with water.

Step Four:

Starting with the lightest color, apply a generous amount of stain randomly to the wet image. Leave plenty of white space.

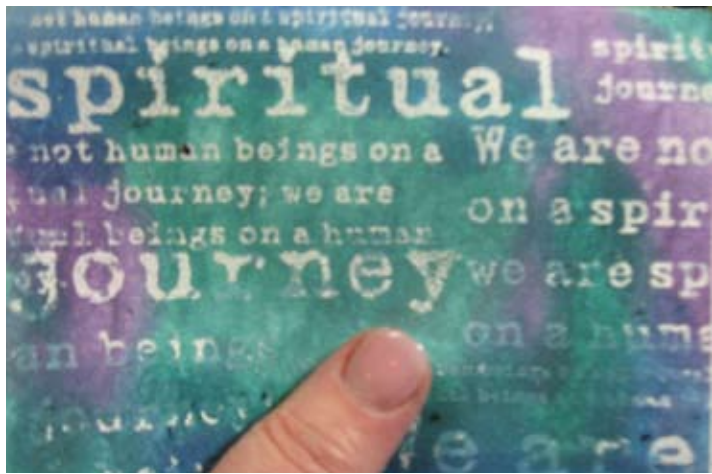

Step Six:

Apply the third color, filling in the remaining white space.

Step Eight:

Apply more of the lightest color in the areas where the colors meet to blend and blur the lines between them.

Step Nine:

Allow to dry and use as desired.
