## Textured Bounty Tutorial

*The metallic inks really make this technique special. Filmed by Pat Huntoon.*

### Supplies:

- 2-3 Colors of Viva Decor or other Metallic Paints
- Sponges to apply paint
- Craft Spray Adhesive
- Paper Towel
- Cardstock, any color
- Water Mist Bottle
- Scissors
- Adhesive
- Optional: Embossing Folder and Embossing Machine

### Step One:

Separate the paper towel into one ply.

### Step Two:

Crumple the towel to create wrinkles.

### Step Three:

Working in a well-ventilated area with a protected work surface, Spray the cardstock with craft adhesive.

### Step Five:

Spray lightly with water. Do not oversaturate.

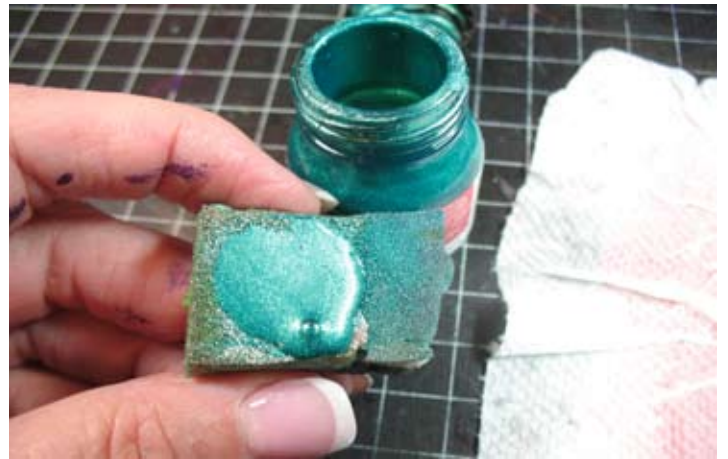

### Step Six Continued

### Step Four:

Adhere the wrinkled towel to the cardstock. Flatten slightly, but keep plenty of wrinkled texture.

### Step Six:

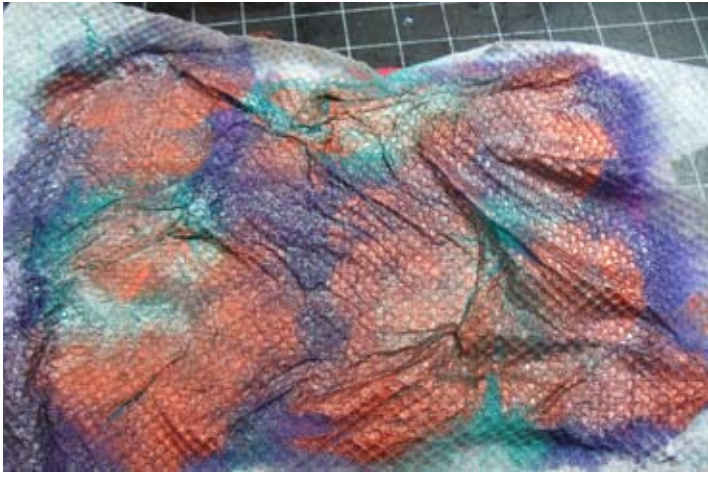

Apply some of the first color of paint on the sponge. Apply the paint to the paper towel surface randomly.

### Step Seven:

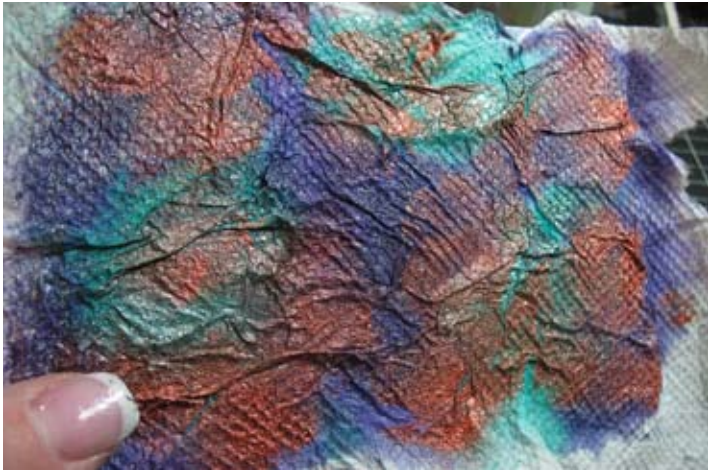

Repeat with a second color, overlapping the paints somewhat and still leaving more white space.

### Step Eight:

Repeat with the third color of paint, covering the towel fully.

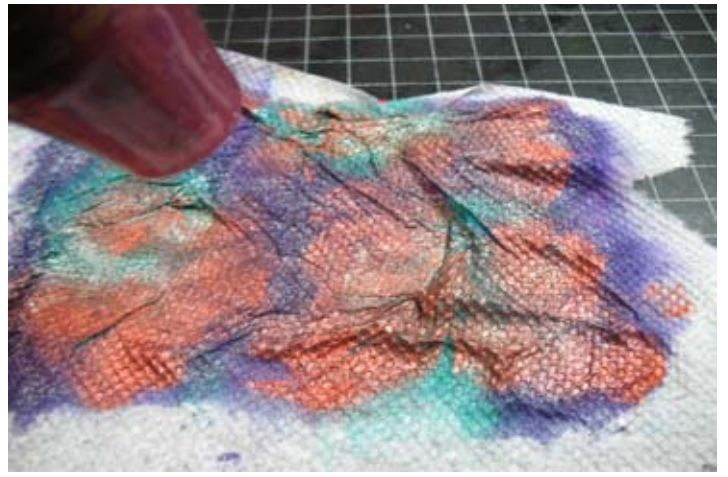

### Step Nine Continued

### Step Eleven:

Apply adhesive around the edge of the back of the cardstock. Press the towel edges into the adhesive, making certain that the edges of the paper towel are flat and tight in the front.

### Step Nine:

Dry with the heat tool.

### Step Ten:

Turn to the back. Remove most of the excess paper towel, leaving a 1/2" edge so the towel can lay flat.

### Step Twelve:

Use as is or proceed to Step Thirteen to add embossed texture.

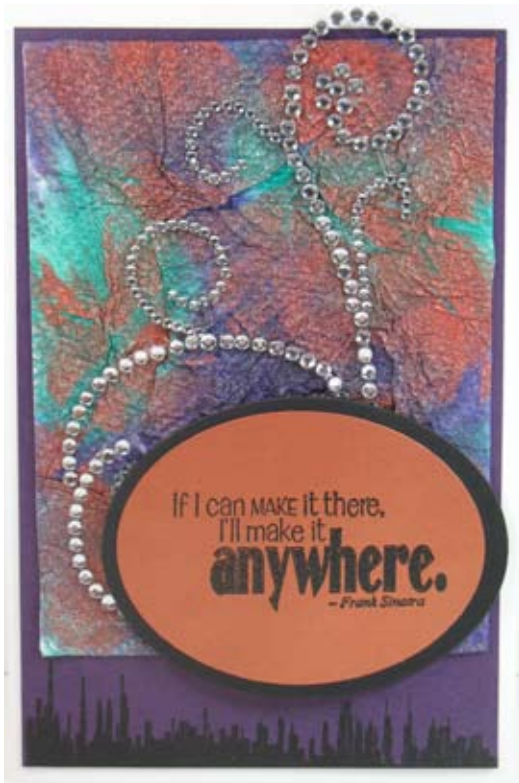

## Step Thirteen:

If desired, use an embossing folder to add texture, then use a dark ink pad on the texture to make it stand out further.
