## Circle Strips Tutorial

*The strips almost look like they have a rounded bottom -- but look closely! The contrast makes these cards interesting. Filmed by Pat Huntoon.*

### Finished Card:

### Supplies:

- 4 Designer Paper Scraps
- 4" x 5 1/4" White or Vanilla Cardstock
- Trimmer
- 1" Circle Punch
- 5 1/8" x 5 3/8" Cardstock
- Ribbon
- Embellishments
- Aged Paper or Caramel Colored Ink  
Sponge or other Ink Applicator
- Optional: Thin-line Marker

### Step One:

Cut the 4 Designer Papers into 1" x 4" strips.

### Step Three:

Add caramel or aged paper ink to the edges of each of the strips and circles.

### Step Five:

Adhere the other three strips next to the first, aligning the edges.

### Step Two:

Punch one 1" circle from each of the four papers.

### Step Four:

Place the white/vanilla cardstock vertically on the work surface. Adhere one of the strips of paper to the left side of the cardstock, aligning the edges carefully.

### Step Six:

Adhere a contrasting circle (not the matching circle) to the bottom of the first strip, aligning the center of the circle with the bottom of the strip.

### Step Seven:

Add the other circles, mixing the patterns.

### Step Eight:

Optional: Use the marker to create stitching lines between the strips.

### Step Nine:

Cut 1" off the 5 1/8" x 5 3/8" cardstock. Adhere over the top of the circles to cover the transition line.

### Step Ten:

Adhere the ribbon over the cardstock strip. Add embellishments and finish as desired.
