

Waxy Cuttlebug Tutorial

April/May 2008

Vada Schutz developed this great technique. This is a more structured version of Joseph's coat that you will just adore!

Supplies:

- Iron
 - Glossy White Cardstock
 - Brayer
 - Kaleidoscope or Spectrum Pad
 - StazOn Black Ink
 - Wax Paper
 - Cuttlebug Embossing Folder/Cuttlebug
 - Stamps
 - Markers
 - White Scrap Paper
- Optional: Aqua painter filled with Bleach

Step One:

Cut a piece of wax paper slightly larger than the embossing folder and insert into the folder.

Step Two:

Run the embossing folder through the Cuttlebug and remove the wax paper.

Step Three:

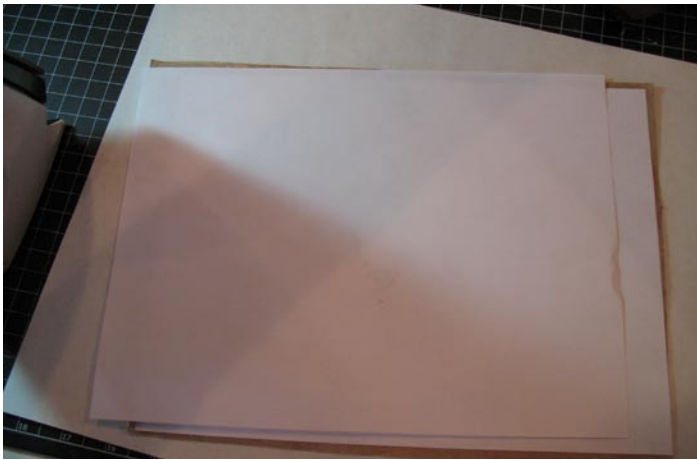

Stamp images on the white cardstock with black StazOn ink.

Step Four:

Place the wax paper over the glossy side of the cardstock, then the scrap paper over that.

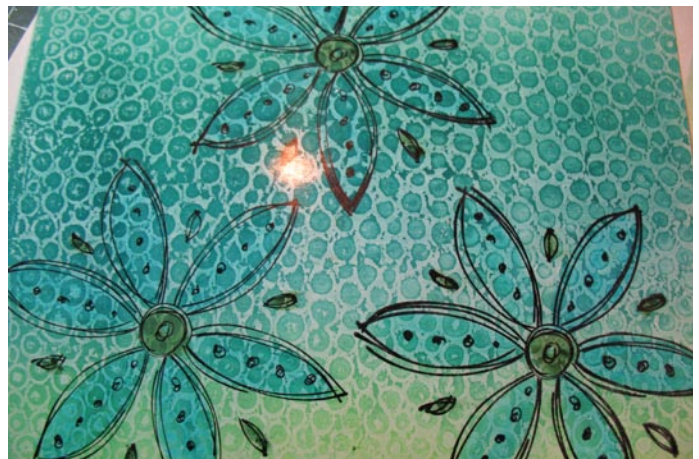

HINT: Use a second piece of glossy cardstock, glossy side-to-wax paper, to create two pieces from the cuttlebugged wax paper.

Step Four, Continued:

Step Five:

Set the iron on high and iron the cardstock "sandwich." Press firmly over the entire cardstock for several minutes. Remove the scrap paper and wax paper.

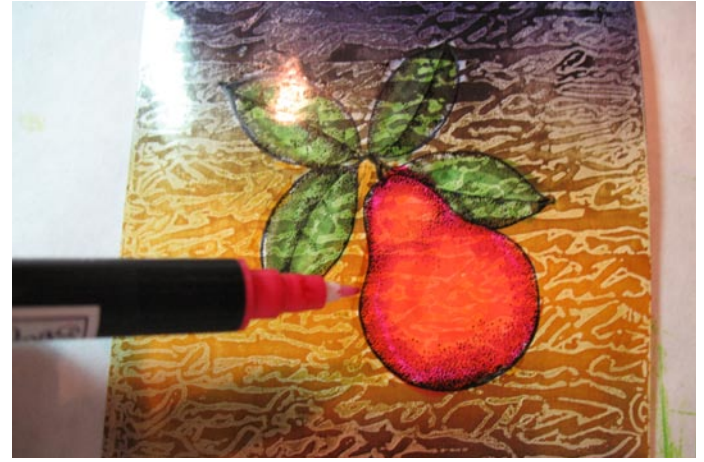

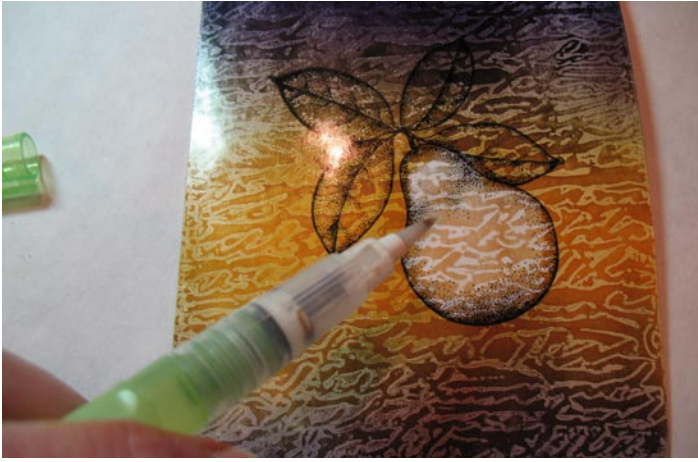

Step Six:

Ink brayer with rainbow ink and brayer over the glossy cardstock.

Step Seven:

Use markers to color the images. Mat and embellish as desired.

Optional:

To use marker colors lighter than the brayered colors, use a bleach filled aqua painter to remove color from the images. Allow the bleach to dry fully, then color the images with the markers.
